UN Global Compact

Letter of Commitment from Staycold's Managing Director

Staycold is proud to commit to the United Nations (UN) Global Compact.

Our commitment to the Global Compact – as well as our commitment to working responsibly – is a fundamental part of how we serve our customers.

The Global Compact's principles are embedded within our company's business practices, policies, and operations and help us function as a stronger company every day.

We continue to look to the UN Global Compact as we evolve our Citizenship approach and adapt to the new social and environmental realities created by ever-advancing technologies.
