

# juice dispensers

Available in two types each in three sizes -

1, 2 and 3 bowl.

Each bowl has 12 litre capacity.

# juice dispensers

- > Two different mixing systems. 'S' models have a Delrin paddle system which avoids froth on the beverage. 'P' models have an electromagnetic jet spray pump manufactured with food grade materials.

- > Serves at 2°C to 8°C.
- > Clear food-grade unbreakable polycarbonate bowl which can be easily removed for cleaning.
- > Two piece dispensing tap, non drip in stainless steel.
- > Adjustable thermostatic temperature control for perfect serving temperature.

- > Chassis and panels all built in stainless steel.
- > Forced air cooled refrigerating unit, hermetic compressor.
- > Suitable for fresh juice and milk.
- > Hard wearing, flexible operating arm.
- > Available green, yellow and blue. Special colours subject to minimum order requirement.
